

MAMA TEMBO TOURS • ZAMBIA

EAST, WEST, CENTRAL AND SOUTHERN AFRICA SAFARI SPECIALIST

Mama Tembo Tours is owned and operated by Leslie Nevison. Always a committed traveler, she and her husband of 40 years first went overseas to live in 1990. They have since called 13 countries home, including Tanzania, Zambia, Zimbabwe, the Republic of Congo, Gabon and Benin. MTT originated in the Canadian province of British Columbia but has found an African base in Lusaka, Zambia.

MTT customizes private safaris for individuals, couples, and small groups, bringing to each an insider's knowledge of the African countries in which Leslie has resided and widely traveled. MTT's signature creations are diverse safari programs which include remote location "gems"; spontaneous cultural interactions; and first-class wildlife observation. Leslie's programs appeal to those seeking highly personal, quality travel; informed advice over the sugar coating of a destination; and who are as comfortable with bumpy roads in the search for uniqueness as they are with a luxury tented camp or seaside resort.

It is rare that anyone returns home disappointed with their safari, but they might not be aware of what they didn't see, how much better it could have been. Leslie wants to ensure that her clients are aware of every option for their African adventure of a lifetime, no matter how they define that adventure. She gives informed, honest and independent advice, and provides one-on-one support from the early days of safari selection, through the booking process, to departure day for Africa, to the day clients return home. Leslie's clients become her good friends, many of whom return to Africa to travel with her again.

WHERE MTT WORKS

Broad experience and knowledge of more than one African country and of more than one region of the continent makes MTT a qualified consultant for anyone seeking multiple country African safaris.
